

1. Community Profile

Is there anything that should be added to the discussion of Mercer County and its municipalities?

2. Planning Process

Is there anything that should be added to the discussion of the planning process?

Are there any other planning mechanisms that need to be discussed and incorporated?

3. Risk Assessment

Do you feel the hazards are sufficiently addressed? If no, what is missing?

Does your community have any particular vulnerability that has not been addressed?

4. Capability Assessment

Do you feel your municipality's capability was adequately addressed? If no, why not?

Is there any tool that would better measure your municipality's capability?

5. Mitigation Strategy

Do you feel the mitigation actions set forth for your community are feasible? (i.e. is there state/local funding/possible grant money available, does the project have local support, etc.)

Please note any mitigation actions listed that you DO NOT want included in the Plan:

Please note any mitigation actions that you would like to add to the Plan:

6. Plan Maintenance

Is there anyone you would like to nominate to help monitor and facilitate the plan maintenance?
